INSTRUCTIONS TO THE APPLICANT: Complete Sections I through V. If you respond "YES" to any of the questions in Section III, please elaborate on these in Section IV. At the bottom of Section V, please sign and date the form, verifying that the information given is correct.

A visit to your physician is required unless you’ve had a physical within the past 12 months. Even in this case, the physician coordinating your care must fill out Section VI before this form will be considered complete. Note that Hubbs cannot do study abroad physicals and are not able to complete this form, except in exceptional circumstances, such as an international student who will not be returning to their home country and will thus not have access to their home doctor for a physical.

After obtaining the physician’s evaluation/signature in Section VI, RETURN THE FORM to:

Center for Global Education
Hobart and William Smith Colleges
300 Pulteney Street
Geneva, NY 14456

MEDICAL REPORT REVIEW: This medical report is subject to review by the HWS and/or Union faculty director(s) for your program and the HWS study abroad administrator and the Director of the campus health center. An applicant will not be prohibited from participation abroad on the basis of either a physical or emotional condition unless it is of such a serious nature or degree as to prevent successful participation in the program; medical care for an individual's medical problem is not available in the program area; and/or the living and environmental conditions to which the applicant could be exposed would present a serious risk to the health of the individual.

I, ____________________________________________, give permission for this form to be kept on file with

Please print name

the Center for Global Education (CGE) and with the faculty directors or onsite coordinators of my program, and for the form to be provided to health care personnel in the event that I require medical care during my semester off campus. In the event that I am unable to give consent to medical care myself in the case of a life-threatening emergency, and/or if my parents/guardians cannot be reached, I hereby give to the faculty director, onsite coordinator or a duly appointed representative consent to care for me, including medical and surgical treatment and hospitalization if necessary. Further, I attest that I have fully and honestly disclosed all physical and/or mental health conditions that affect me or have affected me in the past, whether I have sought treatment for them or not. I understand that if I fail to disclose any physical and/or mental health conditions that later impact me or others during my semester abroad, I may be dismissed from the program. If any new issues arise after filling out this medical form, I will let the CGE know as soon as possible and before I depart for my program country.

________________________________________________________________________________

________________________________________________________________________________

c. Do you have any disability or academic accommodation which will require accommodation abroad? Yes ___ No ___  If yes, please describe

________________________________________________________________________________

III. PAST MEDICAL HISTORY

a. Have you been hospitalized during the past year? Yes ___ No ___

b. Have you been hospitalized previously? Yes ___ No ___

c. Have you had an operation during the past year? Yes ___ No ___

d. Have you had an operation previously? Yes ___ No ___

e. Have you ever been told by a physician to avoid strenuous activity? Yes ___ No ___
f. Have you ever had migraine headaches? __  __

g. Have you ever suspected or been told that you might have an eating disorder such as anorexia nervosa or bulimia? __  __

h. Have you ever had TB or been exposed to anyone with tuberculosis? __  __

i. Have you had a skin test for tuberculosis?  __  __

If yes, please give date: __________________________

j. Was the skin test positive? __  __

k. Have you ever had an allergic reaction to any medication? __  __

If yes, please list: ____________________________________________

l. Do you have any allergies besides those listed in k above? __  __

If yes, please list, describing the severity and symptoms associated with this allergy:

_________________________________________________________________________

_________________________________________________________________________

_________________________________________________________________________

m. Do you have any orthopedic problems that restrict physical activity? __  __

n. Have you ever suspected or been told that you have an alcohol or drug addiction problem? __  __

o. Do you have diabetes mellitus?  
   Has your condition been stable over the past two years? __  __
   Please list medications in Section IV.

p. Do you have a seizure disorder?  
   Have you had a seizure in the past two years? __  __

   If yes, please list date(s): __________________________
   Please list medications in Section IV.

q. Do you have any dietary restrictions?  
   Please list in Section IV.

r. Do you tend to experience motion sickness due to travel by car/bus; boat/ship; airplane? (circle the types of transport that tend to cause sickness) __  __

s. Describe your swimming skills:  Poor  Fair  Good  Expert

Please list special safety skills you may possess such as EMT, CPR, First Aid, Lifeguard Certification:

u. Is there other information we should know about your medical history or need for special services or support while you are abroad?

IV. A. PLEASE GIVE A SHORT EXPLANATION FOR EACH "YES" ANSWER IN SECTION III.
For example, if you were hospitalized within the past year, indicate the problem, the diagnosis if you know, if recovery has been complete, or if you are still under treatment. If you are still under treatment, your physician must comment on this under Section VI.

IV B. Please list any prescription medications you are taking:

Student Name: ___________________________ Program Location: ___________________________

VI. TO BE COMPLETED BY PHYSICIAN

This student has been admitted to an academically challenging study abroad program. **You are being asked to evaluate the physical and mental health of the above named student for safe participation abroad.** Living in unfamiliar surroundings such as those encountered by living abroad can create emotional and physical stresses that may exacerbate mild disorders.

Students who are studying in Europe, New Zealand and Japan will have consistent access to a high level of medical care (although in some cases the individual providing emergency care will not be an English-speaker) with modern medical facilities. Even in these areas, however, culture shock, differences in diet, different cultural mores regarding alcohol and drug use may lead to exaggerated health problems. (In addition, most students studying abroad find that they are expected to walk greater distances, often carrying groceries or full book bags, than they might be accustomed to in the United States.)

Students who are studying in Latin America, Vietnam, China, and Africa may, at times, be in remote areas exposed to harsh environmental conditions with poor or limited water supply and away from immediate, full-service medical care. Gastrointestinal problems are relatively common. Individuals with certain medical conditions which can lead to electrolyte imbalance such as inflammatory bowel disease, diabetes mellitus and insipidis, as well as individuals on Lithium, would be at greater risk, as would persons with unstable seizure disorders, problem asthmatic patients, and individuals with cardiac disorders. Supervision of psychiatric conditions is not practical in many of these locations.

Finally, MANY countries throughout the world limit or ban certain psychotropic drugs from entering their borders. If a psychotropic drug which is commonly used to treat conditions such as ADD, depression, bipolar or obsessive-compulsive disorders is prescribed, please check whether this drug is permitted in the country for which the student is destined and that the quantity prescribed meets their guidelines.

If additional space is required, please attach report.

Diagnosis:

Medications and dosages:

Special diet or dietary restrictions:

Stability of condition over past two years:

Recommendations for the care of this individual:

Is this individual capable of participating in the above named study abroad program? Yes _____ No _____

Signature of physician or health care provider: ____________________________________________________

Name of provider (printed): ________________________________________________________________

Address/telephone: _______________________________________________________________________

RETURN OF FORM: Please return this form to: Center for Global Education, 300 Pulteney St., Hobart and William Smith Colleges, Geneva, NY 14456 or fax to (315) 781-3023.
