Report of Independent Auditors

To the Board of Trustees Hobart and William Smith Colleges

In our opinion, the accompanying statements of financial position and the related statements of activities and of cash flows present fairly, in all material respects, the financial position of Hobart and William Smith Colleges (the "Colleges") at May 31, 2011 and 2010, and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Colleges' management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 1 to the consolidated financial statements, the Colleges changed the manner in which they classify accumulated total investment returns within net assets as a result of the adoption of ASC 958, Not-for-Profit Entities (formerly FASB Staff Position No. 117-1).

1. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements of the Colleges have been prepared on the accrual basis of accounting.

Net Asset Classes

The accompanying financial statements present information regarding the Colleges' financial position and activities according to three classes of net assets: unrestricted, temporarily restricted, and permanently restricted. The three classes are differentiated by the presence or absence of donor restrictions.

- Unrestricted net assets may be designated for specific purposes by the Colleges or may be limited by contractual agreements with outside parties. Unrestricted net assets include operating, plant, and internally designated plant and funds functioning as endowment funds.
- Temporarily restricted net assets are subject to donor stipulations that expire by the passage
 of time or can be fulfilled or removed by actions pursuant to the stipulations. Temporarily
 restricted net assets consist principally of gifts restricted by donors for capital projects and
 other operating purposes, deferred giving arrangements, realized and unrealized gains on
 permanently and temporarily restricted assets in accordance with New York State law and
 unconditional pledges receivable that are not permanently restricted.
- Permanently restricted net assets are subject to donor stipulations requiring that they be
 maintained permanently or until prudently appropriated by the Colleges' Board of Trustees in
 accordance with New York State law. Usually, donor stipulations allow part or all of the
 income earned to be used currently for a restricted purpose such as scholarships or
 professorships. Permanently restricted net assets consist principally of permanent
 endowment principal balances, including unconditional pledges restricted for true endowment.

Expenses are generally reported as decreases in unrestricted net assets. Expirations of donor-imposed stipulations that simultaneously increase one class of net assets and decrease another are reported as reclassifications between the applicable classes of net assets as "net assets released from restrictions." Temporarily restricted contributions received and expended for the restricted purpose in the same fiscal year are recorded as unrestricted net revenues.

Net assets with changed restrictions on the 2010 statement of activities include a reclassification of unrestricted net assets to temporarily restricted net assets of approximately \$5,800,000. This reclassification was necessary to re-establish temporarily restricted net assets that were released in excess in 2009.

Contributions

Contributions, including unconditional pledges, are recognized as revenues when donors' commitments are received. Conditional pledges are not recognized until they become unconditional, that is when the conditions on which they depend are substantially met. Unconditional pledges are recognized at the estimated net present value, net of an allowance for uncollectible amounts, and are classified as either permanently restricted or temporarily restricted. Contributions of assets other than cash are recorded at their estimated fair value. Contributions specified for the acquisition or construction of long-lived assets is reclassified from temporarily restricted to unrestricted net assets when the assets are placed in service.

Costs incurred by the Colleges in obtaining donor contributions were approximately \$3,616,000 and \$3,424,000 in 2011 and 2010, respectively. Approximately \$824,000 and \$778,000 for 2011 and 2010, respectively, of those costs were associated with the activities of the current capital campaign.

Investments and Investment Income

Investments are recorded at fair value as described in Note 5.

Investment securities are exposed to various risks, such as interest rates, market, economic conditions, world affairs and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in their value could occur in the near term and such changes could materially affect the amounts reported in the investments and investment activity of the Colleges.

Realized gains and losses on the sale of investments are determined using the specific identification method. Investment return is reported in the statement of activities and the notes to the financial statements, net of management and custodial fees of approximately \$1,909,000 and \$1,604,000 for 2011 and 2010, respectively and performance fees of approximately, \$1,576,000 and \$528,000, for 2011 and 2010, respectively.

Deferred Giving Arrangements

The Colleges' deferred giving arrangements consist primarily of gift annuities, pooled life income funds and charitable remainder trusts. Deferred giving assets of approximately \$4,005,142 and \$4,014,000 are included in long-term investments at their fair value as of May 31, 2011 and 2010, respectively. Contribution revenues are recognized at the date the arrangements are established after recording liabilities for the present value of the estimated future payments to be made to the donors and/or beneficiaries. The liabilities are adjusted during the term of the arrangements for changes in the value of the assets and changes in the estimated present value of future cash outflows and other changes in the estimates of future benefits. The deferred giving liabilities represent the net present value of future cash outflows over the beneficiary's life expectancy as required by the deferred gift agreements. Discount rates are used to calculate the net present value of the obligations, and are based on market rates commensurate with the beneficiary life expectancy.

Funds Held in Trust by Others

Contributions receivable includes funds held in trust by others which represent resources neither in the possession nor under the control of the Colleges, but paid and administered by outside trustees, with the Colleges deriving income or a residual interest from the assets of such funds. Funds held in trust by others are recognized at the estimated fair value of the assets which approximates the net present value of the future cash flows when the irrevocable trust is established or the Colleges are notified of its existence and are subsequently adjusted for changes in the fair value annually.

Land, Buildings and Equipment

Grounds, site improvements, buildings, equipment and library books are recorded at cost at the date of acquisition or their fair value at the date of donation, less accumulated depreciation, computed on a straight-line basis over the estimated useful lives of the site improvements (20 years), buildings (15-45 years), equipment (5-20 years) and library books (20 years).

Inventories

Inventories are stated at the lower of cost (first-in, first-out) or market.

Cash and Cash Equivalents

Cash investments with a maturity of three months or less when purchased are reported as cash equivalents, unless they are part of long-term investment pools. The carrying amount of cash and cash equivalents approximates fair value.

Accounts Receivable

The carrying amount of accounts receivable approximates fair value.

Deferred Financing Costs

The Colleges have capitalized certain deferred financing costs and are amortizing them over the term of the related debt instrument. Amortization expense was \$48,157 in 2011 and 2010.

Notes Receivable

Notes receivable are principally amounts due from students under federally sponsored loan programs which are subject to significant restrictions. Accordingly, it is not practicable to determine the fair value of such amounts.

Income Taxes

The financial statements do not provide for income taxes as the Colleges are tax-exempt under Section 501(c) (3) of the Internal Revenue Code.

Accounts Payable

The carrying amount of accounts payable approximates fair value.

Allocation of Certain Expenses

The statements of activities present expenses by functional classification. Operation and maintenance of plant, depreciation and interest expense are allocated based on square footage.

Asset Retirement Obligation

The Colleges account for asset retirement obligations in accordance with the Accounting for Asset Retirement Obligations standard. This standard primarily affects the way the Colleges account for asbestos related removal costs. The Colleges accrue for asset retirement obligations in the period in which they are incurred if sufficient information is available to reasonably estimate the fair value of the obligation. Over time, the liability is accreted to its settlement value. Upon settlement of the liability, the Colleges will recognize a gain or loss for any difference between the settlement amount and liability recorded.

The following is a summary of the components of the asset retirement obligation:

	2011	2010
Change in asset retirement obligations		
Asset retirement obligation at beginning of year	\$ 2,107,021	\$ 2,016,475
Asbestos liabilities abated	(39,454)	(2,408)
Accretion expense	97,158	92,954
Asset retirement obligation at end of year	\$ 2,164,725	\$ 2,107,021

Deposits with Trustee of Debt Obligations

Deposits with trustee of debt obligations represent debt service and certain reserve funds required by the trustee.

Derivative Instruments and Hedging Activities

A derivative instrument related to the Colleges' long-term debt is included in the fair value of the swap agreement on the balance sheet. The change in the fair value of the derivative instrument is included in nonoperating revenue (expenses) in the statement of activities. The Colleges selected the combination of a variable rate bond issue and an interest rate swap agreement to obtain fixed rate financing at the lowest available cost at the time of the transaction. The Colleges are exposed to credit loss in the event of nonperformance by the counterparty to its long-term rate swap. The interest rate swap does not qualify for cash flow hedge accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amount of revenues and expenses during the reporting period. The Colleges' significant estimates made in the preparation of these financial statements include, but are not limited to, valuation of investments, estimation of asset retirement obligation, useful lives of fixed assets and estimated net realizable value of accounts and contributions receivable. Actual results could differ from these estimates.

2. Credit Loss Disclosures

The Colleges record an allowance for doubtful accounts (credit losses) for the following loans receivable:

		2011			2010			
	F	leceivable Balance		Related llowance	F	Receivable Balance		Related llowance
Notes receivable Other loans receivable	\$	2,592,123 333,837	\$	128,000 283,870	\$	2,446,208 186,456	\$	128,000 186,456
	\$	2,925,960	\$	411,870	\$	2,632,664	\$	314,456

Notes Receivable represent amounts due from current and former students under the Federal Perkins Loan Program. Loans disbursed under the Federal Perkins Loan program can be assigned to the Federal Government in certain non-repayment situations. In these situations the Federal portion of the loan is guaranteed.

Other Loans Receivable are mainly related to an institutional loan program provided to foreign students and other students with extenuating circumstances in need of additional financial assistance. Loans in this category are considered to be higher risk and as a result, 80 to 100% of the amount of the receivable is reserved.

Management regularly assesses the adequacy of the allowance for doubtful accounts by performing ongoing evaluations of the receivables portfolio, including such factors as the economic environment, risks associated with each receivables category, the financial condition of specific borrowers, the level of delinquent loans, the value of any collateral and, where applicable, the existence of any guarantees or indemnifications.

Factors also considered by management when performing its assessment, in addition to general economic conditions and the other factors described above, included, but were not limited to, a detailed review of the aging of the receivables and a review of the default rate by loan category in comparison to prior years. The level of the allowance is adjusted based on the results of management's analysis.

Changes in the allowance for doubtful accounts for the year ended May 31, 2011 were as follows:

	Notes ceivable	 ner Loans ceivable
Beginning balance, June 1, 2010	\$ 128,000	\$ 186,456
Provision for doubtful accounts	 -	 97,414
Ending balance, May 31, 2011	\$ 128,000	\$ 283,870

Considering the other factors already discussed herein, management considers the allowance for doubtful accounts to be prudent and reasonable. Furthermore, the Colleges' allowance is general in nature and is available to absorb losses from any loan category. Management believes that the allowance for doubtful accounts at May 31, 2011 is sufficient to cover any potential losses inherent in the receivable accounts as of that date.

3. Contributions Receivable

Unconditional contributions receivable at May 31, 2011 and 2010 are restricted by donors predominantly for scholarships and capital projects. They are expected to be realized in the following periods:

	2011	2010
Less than one year One year to five years	\$ 7,415,994 6,632,776	\$ 9,539,853 8,219,709
	14,048,770	17,759,562
Less: Allowance for uncollectibility of approximately \$5,916,000 and \$6,617,000 and present value discount		
of approximately \$251,000 and \$391,000	(6,166,980)	(7,007,727)
	7,881,790	10,751,835
Charitable remainder and perpetual trusts	932,476	747,633
	\$ 8,814,266	\$11,499,468

As of May 31, 2011 and 2010, the Colleges have received notification of bequest intentions totaling approximately \$16,145,000 and \$14,031,000, respectively.

4. Investments

Investments are summarized as follows:

	20	011	20)10
-	Cost	Fair Value	Cost	Fair Value
Cash and cash equivalents Fixed income and	\$ 12,608,392	\$ 12,608,392	\$ 10,226,629	\$ 10,226,629
government securities	15,473,139	16,302,520	20,031,883	20,520,115
Common and preferred				
stocks	55,932,889	61,249,766	35,324,810	33,398,104
Real estate	8,468,978	6,479,662	8,953,321	8,039,356
Private equity	7,281,732	7,529,793	7,347,276	7,317,464
Hedge	58,675,797	82,775,259	73,610,458	89,794,055
Other	1,687,358	1,865,982	1,652,782	1,680,798
-	\$160,128,285	\$188,811,374	\$157,147,159	\$170,976,521

In accordance with its spending policy on endowment and other investments the Colleges' return on investments was as follows:

	2011	2010
Dividends and interest income	\$ 2,264,757	\$ 1,460,613
Net realized and unrealized (losses) gains	18,415,851	16,752,843
Total return on investments	20,680,608	18,213,456
Investment return designated for current operations	8,621,988	8,509,235
Investment return (less than) amounts designated for current operations	\$ 12,058,620	\$ 9,704,221

5. Endowment Funds

Endowment funds are long-term assets of the Colleges created either by donor gifts or by actions of the Board of Trustees. Their purpose is to generate, in perpetuity, operating revenue for specific activities or for the use of the Colleges'. Endowment funds are invested under direction of the Board of Trustees to achieve maximum long-term total return with prudent concern for the preservation of investment capital. All investments of endowment funds are recorded in the statement of financial position as long-term investments, including cash balances held by external investment managers. Unless otherwise directed in the gift instrument or required by applicable law, both donor-restricted and board-designated endowment funds are pooled for efficient investment purposes. These pooled funds are invested in a broadly diversified portfolio designed to produce long-term returns that equal or exceed the Board-approved spending rates plus the impacts of inflation. The fair value of endowment investments (separately invested and pooled) was \$182,833,093 and \$165,864,735 as of May 31, 2011 and 2010, respectively.

The New York Prudent Management of Institutional Funds Act ("NYPMIFA") became effective on September 17, 2010 and governs the management and investment of funds held by not-for-profit corporations and other institutions. Absent donor stipulations to the contrary, the statutory

guidelines contained in NYPMIFA relate to the prudent management, investment and expenditure of donor-restricted endowment funds without regard to the original value of the gifts. However, NYPMIFA contains specific factors that must be considered prior to making investment decisions or appropriating funds for expenditure. For accounting purposes, the Colleges applied the concepts included in NYPMIFA and disclosure requirements for not-for-profit organizations with donor-restricted endowment funds regarding classification of accumulated total return as temporarily restricted net assets as of June 1, 2010 for the year ended May 31, 2011. Accordingly, accumulated total return of \$28,572,687 as of June 1, 2010 was reclassified to temporarily restricted net assets from unrestricted net assets, as a cumulative effect of change in accounting principle.

The Colleges' Board of Trustees has interpreted New York State's Not-for-Profit Corporation Law, including NYPMIFA, as requiring the preservation of the fair value of the original gift as of the gift date of the donor restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Colleges classify as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. Unspent appropriations related to the donor restricted endowment fund are classified as temporarily restricted net assets until the amounts are expended by the Colleges in a manner consistent with the donor's intent. The remaining portion of the donor-restricted net assets is classified as unrestricted net assets.

The Board of Trustees determines the appropriate amount to withdraw from endowment funds on an annual basis, to provide support for operations with prudent concern for the long-term growth in the underlying assets. The Colleges employ a total return spending policy which recognizes for spending purposes income equal to a percentage of a multi-year moving average of the unit value of pooled investments. The percentage was 5.0% in 2011 and 2010. In any given year, the amount availed from the pooled investments may, therefore, be greater or less than the dividend or interest yield for that year. Investment returns earned in excess of the spending policy are classified as nonoperating revenue; any shortfall is made up from historically earned capital appreciation.

The following table provides the net asset composition of the endowment as of May 31, 2011 and a rollforward of the net assets from June 1, 2010 to May 31, 2011.

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Donor-restricted funds Funds functioning as endowment	\$ (330,210) 24,327,358	\$ 41,583,794 -	\$117,252,151 -	\$158,505,735 24,327,358
·	\$ 23,997,148	\$ 41,583,794	\$117,252,151	\$182,833,093

Endowment net assets, end of year	\$ 23,997,148	\$ 41,583,794	\$117,252,151	\$182,833,093

The following table provides the net asset composition of the endowment as of May 31, 2010 and a rollforward of the net assets from June 1, 2009 to May 31, 2010.

	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Donor-restricted funds Funds functioning as endowment	\$ - 47,816,529	\$ 2,341,242 	\$115,706,964 	\$118,048,206 47,816,529
	\$ 47,816,529	\$ 2,341,242	\$115,706,964	\$165,864,735
	Unrestricted	Temporarily Restricted	Permanently Restricted	Total
Endowment net assets, beginning				
of year	\$ 36,684,804	\$ 1,332,375	\$102,839,042	\$140,856,221
Investment return	15,814,155	1,993,819	7,715	17,815,689
Capital gifts	95,300	51	7,014,463	7,109,814
Other changes	2,338,258		5,845,744	8,184,002
Endowment spending	(7,115,988)	(985,003)		(8,100,991)
Endowment net assets, end of year	r <u>\$ 47,816,529</u>	\$ 2,341,242	\$115,706,964	\$165,864,735

Certain endowment funds are pooled on a fair value basis; purchases or dispositions are at fair value per unit at the beginning of the month in which the transaction takes place. The following table summarizes information on the pooled investments.

	2011	2010
Decled in permante		
Pooled investments		
Fair value	\$174,943,460	\$157,635,622
Cost	147,329,610	144,109,152
Fair value per unit	3.25	3.03
Spending rate per unit	0.17	0.18

As a result of market declines, the fair market value of certain donor-restricted endowments was less than the historical cost value of such funds by \$330,210 and \$1,437,556 at May 31, 2011 and May 31, 2010, respectively. To support spending from these endowment funds the Colleges utilized unrestricted accumulated gains of \$0 and \$796,454, in 2011 and 2010, respectively.

The unrealized losses for these endowment funds have been recorded as reductions in unrestricted net assets. Future market gains will be used to restore this deficiency in unrestricted net assets before any net appreciation above the historical cost value of such funds increases temporarily restricted net assets. While it is the intent of the Colleges to restore this deficiency from future gains, there is no legal obligation to do so.

6. Fair Value

Financial instruments recorded at fair value in the statement of financial position are categorized in accordance with the fair value measurement hierarchy. The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used by the Colleges for these financial instruments on a recurring basis. The three levels of inputs are as follows:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the same term of the assets or liabilities.
- Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The Colleges use the NAV to determine the fair value of all alternative investments that do not have a readily determinable fair value and that have financial statements consistent with the measurement principles of an investment company or have the attributes of an investment company. Investments that can be redeemed at NAV by the Colleges on the measurement date or in the near term, 90 days or less, are classified as Level 2. Investments that cannot be redeemed on the measurement date or in the near term are classified as Level 3.

The methods described above may produce a fair value calculation that is not indicative of net realizable value or reflective of future fair values. Furthermore, while the Colleges believe these valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Below is a list of the Colleges' investments in other investment companies (or similar entities) by major investment category:

Real Estate

This category includes investments in commercial, residential improved and unimproved real estate primarily in the United States. Total commitments for these investments were approximately \$11,554,000 with \$939,779 unfunded at May 31, 2011 and \$11,554,000 with \$1,150,000 unfunded at May 31, 2010. The fair value of these investments at May 31, 2011 and 2010 was \$6,479,662, and \$8,039,356, respectively. The Colleges do not have redemption rights in these investments and the investments have remaining lives between one and eleven years.

Private Equity

This category includes investments in domestic and international private sector businesses and similar equity securities. Total commitments for these investments were approximately \$13,500,000 with \$3,907,414 unfunded at May 31, 2011 and \$13,500,000 with \$5,868,000 unfunded at May 31, 2010. The fair value of these investments at May 31, 2011 and 2010 was \$7,529,793, and \$7,317,464, respectively. The Colleges do not have redemption rights in these investments and the investments have remaining lives between one and seven years.

Hedge

This category includes investments in funds of funds and private investment companies that employ a multi-strategy investment approach. Total commitments for these investments were approximately \$54,200,000 that were completely funded at May 31, 2011 and \$76,000,000 that were completely funded at May 31, 2010. The fair value of these investments at May 31, 2011 and 2010 was \$82,775,259, and \$89,794,055, respectively. The Colleges may redeem these investments on a monthly, quarterly or annual basis with notice ranging from 7 days to 95 days.

The following table presents the financial instruments carried at fair value as of May 31, 2011 and 2010, by caption on the statement of financial position by the valuation hierarchy defined above:

	\$-	\$ (5,557,117)	\$-	\$ (5,557,117)

The following table is a rollforward of the statement of financial position amounts for financial instruments classified by the Colleges within Level 3 of the fair value hierarchy previously defined:

	Perpetual Interest Held by Others	Real Estate	Private Equity	Hedge	Long-term Investments Total
Beginning balance at June 1, 2010	\$ 393,141	\$ 8,039,356	\$ 7,317,464	\$ 34,694,475	\$ 50,051,295
Total gains or losses (realized and unrealized) including non-operating losses Purchases, sales, gifts, issuances and settlements	303,359 -	(945,171) (614,523)	872,521 (660,192)	2,413,604 (7,142,575)	2,340,954 (8,417,290)
Transfers in (out) of level 3					-
Ending balance at May 31, 2011	\$ 696,500	\$ 6,479,662	\$ 7,529,793	\$ 29,965,504	\$ 43,974,959
	Perpetual Interest Held by Others	Real Estate	Private Equity	Hedge	Long-term Investments Total
Beginning balance at June 1, 2009	Interest Held	Real Estate \$ 8,391,923	Private Equity \$5,519,295	Hedge \$ 69,375,187	Investments
Beginning balance at June 1, 2009 Total gains or losses (realized and unrealized) including non-operating losses Purchases, sales, gifts, issuances and settlements Transfers in (out) of level 3	Interest Held by Others			0	Investments Total

All net realized and unrealized gains (losses) in the table above are reflected in the accompanying Statement of Activities.

Following is a description of the Colleges' valuation methodologies for assets measured at fair value.

Fair value for Level 1 is based upon quoted prices in active markets that the Colleges have the ability to access for identical assets and liabilities. Market price data is generally obtained from exchange or dealer markets. The Colleges do not adjust the quoted price for such assets and liabilities.

Fair value for Level 2 is based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets. Inputs are obtained from various sources including market participants, dealers, and brokers.

The interest rate swap is valued using both observable and unobservable inputs, such as quotations received from the counterparty, dealers or brokers, whenever available and considered reliable. In instances where models are used, the value of the interest rate swap depends upon the contractual terms of, and specific risks inherent in, the instrument as well as the availability and reliability of observable inputs.

Fair value for Level 3, is based on valuation techniques that use significant inputs that are unobservable as they trade infrequently or not at all.

Investments included in Level 3 primarily consist of the Colleges' ownership in alternative investments (principally limited partnership interests in hedge, private equity, and real estate). The value of certain alternative investments represents the ownership interest in the net asset value (NAV) of the respective partnership and do not have readily determinable fair values. The fair values of the securities held by limited partnerships are determined by the general partner and are based on appraisals, or other estimates that require varying degrees of judgment. If no public market exists for the investment securities, the fair value is determined by the general partner taking into consideration, among other things, the cost of the securities, prices of recent significant placements of securities relate. The Colleges have performed due diligence around these investments to ensure NAV is an appropriate measure of fair value as of May 31.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Colleges believe their valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

7. Land, Buildings and Equipment

The components of land, buildings and equipment, as of May 31, 2011 and 2010 were as follows:

	2011	2010
Grounds	\$ 3,407,792	\$ 3,407,792
Site improvements	13,259,597	10,682,115
Buildings	150,706,428	143,427,297
Equipment	42,127,859	40,475,896
Library books	16,796,062	16,283,428
Construction in progress	1,407,134	7,129,614
	227,704,872	221,406,142
Accumulated depreciation	(89,222,608)	(81,738,849)
	\$138,482,264	\$139,667,293

Depreciation expense amounted to \$7,532,371 and \$7,552,627 in 2011 and 2010, respectively.

8. Borrowings

Borrowings consist of the following at May 31:

	Maturity Date	Interest Rate	Original Issue	2011	2010
City of Geneva Industrial Development Agency Revenue Bonds					
Series 2001 (a)	2031	4.0 - 5.2%	10,120,000	\$ 8,360,000	\$ 8,590,000
Series 2003A (a)	2033	3.0 - 5.4%	20,000,000	18,350,000	18,785,000
Series 2003B (a)	2023	4.8%	2,115,000	2,090,000	2,095,000
Series 2007 (b)	2037	Variable	31,250,000	29,575,000	30,150,000
Net bond premium				523,303	546,578
				58,898,303	60,166,578
Manufacturers and Traders Trust Company					
Term Note (c)	2023	6.98%	3,420,000	2,556,000	2,688,000
				\$61,454,303	\$62,854,578

- a. The bonds are collateralized by the related property and equipment.
- b. In December 2007, the Colleges issued \$31,250,000 of Series 2007 City of Geneva Industrial Development Agency Multi-Modal Civic Facility Revenue Bonds. The proceeds of the bonds are being used to finance various building and renovation projects. The bonds were issued as Variable Rate Demand bonds and the interest rate is determined every 7 days. Interest is payable monthly and the rates paid during the fiscal year ended May 31, 2011 ranged from .18% to.34%. The bonds mature in 2037.

On September 4, 2008, the Colleges entered into a letter of credit with a financial institution and converted the Series 2007 bonds from insured and liquidity facility enhanced Variable Rate Demand bonds to Variable Rate Demand bonds that are enhanced by the letter of credit. The letter of credit was issued in the amount of \$31,599,316 and will remain in effect until notice that the outstanding bonds have been repaid, the related bonds have been converted to an interest rate other than a Daily Rate or Weekly Rate, or a substitute Credit Agreement or Liquidity Facility has been put in place. The letter of credit expires on September 3, 2012.

In connection with the issuance of the letter of credit, there was a reoffering of the bonds to include the amendment. The reoffering was accounted for as an early extinguishment of debt and accordingly the Colleges were required to write off previously capitalized deferred financing costs of approximately \$1,275,000.

c. Interest on the note is fixed at 6.98% through 2013, at which time the rate becomes variable at LIBOR plus 2% until maturity in 2023.

The following represents payments on bonds payable and term note:

2012	\$ 1,427,000
2013	1,242,000
2014	1,347,500
2015	1,392,500
2016	1,437,500
Thereafter	54,084,500
	60,931,000
Net bond premium	523,303
	\$ 61,454,303

As noted in letter (b) above the Colleges have a letter of credit agreement with a financial institution. In the event that the Series 2007 Bond covered by this agreement is not remarketable and the agreements were not otherwise renewed, the principle amounts due in the principal debt service payments table would be:

2012	\$ 1,427,000
2013	10,275,333
2014	10,355,833
2015	10,375,834
2016	1,437,500
Thereafter	27,059,500
	\$ 60,931,000

The fair value of the Colleges' borrowings is estimated based on current rates for similar issues. The fair value of borrowings was approximately \$62,251,000 and \$64,056,000 at May 31, 2011 and 2010, respectively.

The bond agreements related to the 2001, 2003 and 2007 series include certain financial and non financial covenants. As of May 31, 2011 and 2010, the Colleges were not in compliance with a required financial ratio. The Colleges have obtained waivers of such non compliance for the respective periods.

Interest Rate Swap

On June 18, 2007, the Colleges entered into an interest rate swap agreement with an effective date of December 4, 2007 and a maturity date of December 1, 2037. Neither the Colleges nor the counterparty, which is a prominent financial investment institution, are required to collateralize their respective obligations under this swap. The purpose of this swap is to fix the interest rate on a portion of variable rate debt and reduce certain exposures to interest rate fluctuations. At May 31, 2011, the notional amount of the swap was \$29,575,000. Under the agreement, the Colleges will pay the counterparty interest at a fixed rate of 4.0% until maturity. The notional amount does not represent an amount exchanged by the parties, and is thus not a measure of exposure of the Colleges. The amounts exchanged are based on the notional amounts and other terms of the swap. The Colleges have recognized \$1,044,102 of expense in the statement of activities which represents the net cash payment for the difference between the Colleges 'and the counterparty's payments under the swap. At May 31, 2011 and 2010, the Colleges recognized a decrease in net assets of \$135,700 and \$117,000, respectively, and a related increase in liabilities on the statement of financial position.

Line of Credit

The Colleges maintain a line of credit for \$1,000,000 which was unused during 2011 and 2010. The line of credit is renewed on an annual basis.

9. Student Loan Guarantees

The Colleges offer students a loan option through the Hobart and William Smith Loan Program. Loans are disbursed and administered by an outside lender. The Colleges guarantee the loans when certain conditions of default by the borrowers occur. A liability for an estimate of future guarantees is included in accounts payable and accrued liabilities of approximately \$189,000 and \$195,000 at May 31, 2011 and 2010, respectively. The maximum potential amount of undiscounted future payments that the Colleges could be required to make under this program is approximately \$1,700,000.

10. Net Tuition and Fees

Tuition and fees revenues and scholarship expenditures are summarized in the following table:

	2011	2010
Tuition and fees	\$ 88,657,539	\$ 83,108,843
Institutionally funded scholarships	(36,466,774)	(34,063,732)
Government funded grants	(717,970)	(541,688)
Net tuition and fees	\$ 51,472,795	\$ 48,503,423

11. Retirement Plan

The Colleges participate in contributory retirement plans administered by the Teachers Insurance Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF) for full-time employees. The Colleges' policy is to accrue the costs of these defined contribution plans currently. Total expense charged to operations relating to these plans was approximately \$2,909,000 and \$2,789,000 for 2011 and 2010, respectively.

The Colleges offer a phased retirement plan and a retirement plan with postretirement healthcare benefits for faculty. Eligible faculty who elect retirement under the plan with postretirement healthcare benefits and are between the ages of 60 and 65 receive healthcare coverage through the Colleges until they are Medicare eligible. Beginning June 1, 2002 eligible faculty may elect retirement under the plan by June 30 to commence June 30 of the following year (i.e. one year notice).

12. Insured Risks

The Colleges participate in the New York College and University Risk Management Group Trust (the "Trust"). The Trust pays claims and judgments relating to workers' compensation. The Trust charges the Colleges an annual amount based upon the overall experience of the Trust, including experience specific to the Colleges. The amount of the Colleges' liability for estimated workers' compensation claims is approximately \$167,000 at May 31, 2011 and 2010.

13. Subsequent Event

The Colleges have performed an evaluation of subsequent events through February 28, 2012, the date on which the financial statements were issued.
